Together  
we make a  
difference in  
the world

Your Community is now hosting one of Planet Aid's donation boxes to participate in Planet Aid's Development Through Recycling program.

**About Planet Aid:** Planet Aid is a non-profit organization dedicated to the wellbeing of people and the earth alike. We collect and receive used clothing to protect the environment as well as support development, health and educational programs in the United States, parts of Asia, Africa, and Latin America. We contribute to over 50 projects in 15 countries world-wide and last year raised and contributed almost 20 million dollars towards these projects.

**Planet Aid has two main goals:** To help the environment by encouraging recycling and to help both children and adults living in some of the poorest areas here and abroad. Rather than sending clothing to landfills we recycle them to support our projects around the world including but not limited to: Planet Aid Local Schools Program, Child Aid, Schools for Children, and HOPE/TCE (Total Control of the Aids Epidemic).

**Effects of your contribution:** Aside from our numerous projects around the world, your contribution does wonders for the environment. In 2008 Planet Aid collected 102 million pounds of used clothing. Recycling these items instead of producing new clothes saved 7.4 billion gallons of water, 31 Million pounds of fertilizer, 21 million pounds of pesticides and 367 million pounds of greenhouse gases were kept out of the atmosphere.

**What can be donated:** Clothes (pants, shirts, socks, undergarments, jackets, sweaters, dresses, shorts, skirts, baby clothes...etc), shoes (any pair of shoes can be donated. Please help keep the pairs together by donating them in their boxes or bagged together), purses, belts, jewelry, stuffed animals, linens and towels, and any fabrics that can be reused.

Thank you in advance for your support!

Sincerely,

All of us here at Planet Aid Los Angeles
